BUFFALO AND CHICAGO LINE OF STEAMBOATS.

Lady Elgin,	Hendrick Hudson,	Sultana,
Louisiana,	Globe,	Wisconsin.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

Refer to L. J. Higby, Thomas P. Williams, and Kellogg, Strong & Co., Milwaukee.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Briar Hill and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered are security beyond the reach of circumstances as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 2000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. THE subscribers, thankful for past favors, beg leave to announce that they have recently added the FOUNDRY business to their former occupation of Mill Stone manufacturing, and are now prepared to supply the public with articles in either branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be purchased at any other place, being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST
DOUBLE OVEN COOKING STOVE,
(*Which received the First Premium at the State Fair, lately held at Janesville,*)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, not consuming over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the flue back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the conveniences of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being opened or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to offices as well as parlors.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

Persons purchasing their stoves of us, in the event of any of the plates getting broke, can at all times be supplied with extra ones, thus superceding the necessity of throwing away stoves, which many are daily compelled to do in buying Eastern Ware.

Those who are in want of an article in our line, will find it to their advantage to give us a call, before purchasing elsewhere, as we are confident that we can give satisfaction in all cases. City references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.

BLEAK HOUSE.

BY

CHARLES DICKENS.

CHAPTER XVIII.—LADY DEDLOCK.

(CONTINUED.)

It was a picturesque old house, in a fine park richly wooded. Among the trees, and not far from the residence, he pointed out the spire of the little church of which he had spoken. O, the solemn woods over which the light and shadow travelled swiftly, as if Heavenly wings were sweeping on benignant errands through the summer air; the smooth green slopes, the glittering water, the garden where the flowers were so symmetrically arranged in clusters of the richest colors, how beautifully they looked! The house, with gable, and chimney, and tower, and turret, and dark door-way, and broad terrace-walk, twining among the balustrades of which, and lying heaped upon the vases, there was one great flush of roses, seemed scarcely real in its light solidity, and in the serene and peaceful hush that rested on all around it. To Ada and to me, that above all, appeared the prevailing influence. On everything, house, garden, terrace, green slopes, water, old oaks, fern, moss, woods again, and far away across the openings in the prospect, to the distance lying wide before us with a purple bloom upon it, there seemed to be such undisturbed repose.

When we came into the little village, and passed a small inn with the sign of the Dedlock Arms swinging over the road in front, Mr. Boythorn exchanged greetings with a young gentleman sitting on a bench outside the inn-door, who had some fishing-tackle lying beside him.

"That's the house-keeper's grandson, Mr. Rouncewell by name," said he; "and he is in love with a pretty girl up at the house. Lady Dedlock has taken a fancy to the pretty girl, and is going to keep her about her own fair person—an honor which my young friend himself does not at all appreciate. However, he can't marry just yet, even if his Rosebud were willing; so he is fain to make the best of it. In the meanwhile, he comes here pretty often, for a day or two at a time, to—fish. Ha ha ha ha!"

"Are he and the pretty girl engaged, Mr. Boythorn?" asked Ada.

"Why, my dear Miss Clare," he returned, "I think they may perhaps understand each other; but you will see them soon, I dare say, and I must learn from you on such a point—not you from me."

Ada blushed; and Mr. Boythorn, trotting forward on his comely gray horse, dismounted at his own door, and stood ready, with extended arm and uncovered head, to welcome us when we arrived.

He lived in a pretty house, formerly the Parsonage house, with a lawn in front, a bright flower-garden at the side, and a well-stocked orchard and kitchen-garden in the rear, enclosed with a venerable wall that had of itself a ripened ruddy look. But, indeed, everything about the place wore an aspect of maturity and abundance. The old lime-tree walk was like green cloisters, the very shadows of the cherry-trees and apple-trees were heavy with fruit, the gooseberry-bushes were so laden that their branches arched and rested on the earth, the strawberries and raspberries grew in like profusion, and the peaches basked by the hundred on the wall. Tumbled about among the spread nets and the glass frames sparkling and winking in the sun, there were such heaps of drooping pods, and marrows, and cucumbers, that every foot of ground appeared a vegetable treasury, while the smell of sweet herbs and all kinds of wholesome growth (to say nothing of the neighboring meadows where the hay was carrying) made the whole air a great nosegay. Such stillness and composure reigned within the orderly precincts of the old red wall, that even the feathers hung in garlands to scare the birds hardly stirred; and the wall had such a ripening influence that where, here and there high up a disused nail and scrap of list still clung to it, it was easier to fancy that they had mellowed with the changing seasons, than that they had rusted and decayed according to the common fate.

The house, though a little disorderly in comparison with the garden, was a real old house, with settles in the chimney of the brick floored kitchen, and great beams across the ceilings. On one side of it was the terrible piece of ground in dispute, where Mr. Boythorn maintained a sentry in a smock frock, day and night, whose duty was supposed to be, in case of aggression, immediately to ring a large bell hung up there for the purpose, to unchain a great bull dog established in a kennel as his ally, and generally to deal destruction on the enemy. Not content with these precautions, Mr. Boythorn had himself composed and posted there on painted boards to which his name was attached in large letters, the following solemn warnings: "Beware of the Bull-dog. He is most ferocious. Lawrence Boythorn." "The Blunderbuss is loaded with slugs. Lawrence Boythorn." "Man-traps and spring-guns are set here at all times of the day and night. Lawrence Boythorn." "Take notice. That any person or persons audaciously presuming to trespass on this property, will be punished with the utmost severity of private chastisement, and prosecuted with the utmost rigor of the law. Lawrence Boythorn." These he showed us from the drawing-room window, while his bird was hopping about his head; and he laughed, "Ha ha ha! Ha ha ha!" to that extent as he pointed them out, that I really thought he would have hurt himself.

"But, this is taking a good deal of trouble," said Mr. Skimpole, in his light way, "when you are not in earnest after all?"

"Not in earnest!" returned Mr. Boythorn with unspeakable warmth. "Not in earnest! If I could have hoped to train him, I would have bought a lion instead of that dog, and would have turned him loose upon the first intolerable robber who should dare to make an encroachment on my rights. Let Sir Leicester Dedlock consent to come out and decide this question by single combat, and I will meet him with any weapon known to mankind in any age or country; I am that much in earnest. Not more!"

We arrived at his house on Saturday. On the Sunday morning we all set forth to walk to the little church in the park. Entering the park, almost immediately by the disputed ground, we pursued a pleasant footpath winding among the verdant turf and the beautiful trees, until it brought us to the church.

The congregation was extremely small and quite a rustic one, with the exception of a large muster of servants from the House, some of whom were already in their seats, while others were yet dropping in. There were some stately footmen; and there was a perfect picture of an old coachman, who looked as if he were the official representative of all the pomps and vanities that had ever been put into his coach. There was a very pretty show of young women; and above them, the handsome old face and fine responsible portly figure of the housekeeper, towered pre-eminent. The pretty girl, of whom Mr. Boythorn had told us, was close by her. She was so very pretty, that I might have known her by her beauty, even if I had not seen how blushingly conscious she was of the eyes of the young fisherman, whom I discovered not far off. One face and not an agreeable one, though it was handsome, seemed maliciously watchful of this pretty girl, and indeed of every one and everything there. It was a Frenchwoman's.

As the bell was yet ringing, and the great people were not yet come, I had leisure to glance over the church, which smelt as earthy as a grave, and to think what a shady, ancient, solemn little church it was. The windows, heavily shaded by trees, admitted a subdued light that made the faces around me pale, and darkened the old brasses in the pavement, and the time and damp-worn monuments, and rendered the sunshine in the little porch, where a monotonous ringer was working at the bell, inestimably bright. But a stir in that direction, a gathering of reverential awe in the rustic faces, and a blandly-ferocious assumption on the part of Mr. Boythorn of being resolutely unconscious of somebody's existence, forewarned me that the great people were come, and that the service was going to begin.

"Enter not into judgement with thy servant, O Lord, for in thy sight——"

Shall I ever forget the rapid beating at my heart, occasioned by the look I met as I stood up! Shall I ever forget the manner in which those handsome proud eyes seemed to spring out of their languor, and to hold mine? It was only a moment before I cast mine down—released again, if I may say so—on my book; but, I knew the beautiful face quite well, in that short space of time.

And, very strangely, there was something quickened within me, associated with the lonely days at my godmother's; yes, away even to the days when I had stood on tiptoe to dress myself at my little glass, after dressing my doll.—And this, although I had never seen this lady's face before in all my life—I was quite sure of it—absolutely certain.

It was easy to know that the ceremonious gouty, gray-haired gentleman, the only other occupant of the great pew, was Sir Leicester Dedlock; and that the lady was Lady Dedlock. But why her face should be, in a confused way, like a broken glass to me, in which I saw scraps of old remembrances; and why I should be so fluttered and troubled (for I was still), by having casually met her eyes, I could not think.

I felt it to be an unmeaning weakness in me, and I tried to overcome it by attending to the words I heard. Then, very strangely, I seemed to hear them, not in the reader's voice, but in the well remembered voice of my godmother. This made me think, did Lady Dedlock's face accidentally resemble my godmother's? It might be that it did, a little; but the expression was so different, and the stern decision which had worn into my godmother's face, like weather into rocks, was so completely wanting in the face before me, that it could not be that resemblance which had struck me. Neither did I know the loftiness and haughtiness of Lady Dedlock's face at all, in any one. And yet I—I, little Esther Summerson, the child who lived a life apart, and on whose birthday there was no rejoicing—seemed to arise before my own eyes, evoked out of the past by some power in this fashionable lady, whom I not only entertained no fancy that I had ever seen, but whom I perfectly well knew I had never seen until that hour.

It made me tremble so, to be thrown into this unaccountable agitation, that I was conscious of being distressed even by the observation of the French maid, though I knew she had been looking watchfully here, and there, and everywhere, from the moment of her coming into the church. By degrees, though very slowly, I at last overcame my strange emotion. After a long time I looked towards Lady Dedlock again. It was while they were preparing to sing, before the sermon. She took no heed of me, and the beating at my heart was gone. Neither did it revive for more than a few moments, when she once or twice afterwards glanced at Ada or at me through her glass.

The service being concluded, Sir Leicester gave his arm with much state and gallantry to Lady Dedlock—though he was obliged to walk by the help of a thick stick—and escorted her out of church to the pony carriage in which they had come. The servants then dispersed, and so did the congregation: whom Sir Leicester had contemplated all along, (Mr. Skimpole said to Mr. Boythorn's infinite delight,) as if he were a considerable landed proprietor in Heaven.

"He believes he is!" said Mr. Boythorn. "He firmly believes it. So did his father, and his grandfather, and his great-grandfather!"

"Do you know," pursued Mr. Skimpole, very unexpectedly to Mr. Boythorn, "it's agreeable to me to see a man of that sort?"

"*Is* it!" said Mr. Boythorn.

"Say that he wants to patronize me," pursued Mr. Skimpole. "Very well! I dont object."

"*I* do," said Mr. Boythorn, with great vigor.

"Do you really?" returned Mr. Skimpole, in his easy light vein. "But that's taking trouble, surely. And why should you take trouble. Here am I, content to receive things childishly, as they fall out; and I never take the trouble! I come down here, for instance, and I find a mighty potentate, here is my homage! It's easier to give it than to withhold it. Here it is. If you have anything of an agreeable nature to show me, I shall be happy to see it; if you have anything of agreeable nature to give me, I shall be happy to accept it."—Mighty potentate replies in effect, "This is a sensible fellow. I find him accord with my digestion and my bilious system. He doesn't impose upon me the necessity of rolling myself up like a hedge-hog with my points outward. I expand, I open, I turn my silver lining outward like Milton's cloud, and it's more agreeable to both of us. That's my view of such things; speaking as a child!"

"But suppose you went down somewhere else to-morrow," said Mr. Boythorn, "where there was the opposite of that fellow—or of this fellow. How then?"

"How then?" said Mr. Skimpole, with an appearance of the utmost simplicity and candor.—"Just the same then! I should say, "My esteemed Boythorn"—to make you the personification of our imaginary friend,—my esteemed Boythorn, you object to the mighty potentate? Very good. So do I. I take it that my business in the social system is to be agreeable; I take it that everybody's business in the social system is to be agreeable. It's a system or harmony, in short. Therefore if you object, I object. Now, excellent Boythorn, let us go to dinner."

"But, excellent Boythorn might say," returned our host, swelling and growing very red, "I'll be ——"

TEMPERANCE CONVENTION.

We have been furnished with the following proceedings of the late Convention of the friends of Temperance at Troy, by Rev. Mr. HUMPHREY one of the Secretaries:

Temperance Convention—Maine Law.

In response to a call addressed to all the friends of Temperance, in Southern Wisconsin, without distinction of sect or party, a large number of strong-hearted and strong-handed citizens assembled in convention at Troy, on Wednesday, Aug. 25th, in the Congregational Church. Their object was chiefly to consider the expediency of instituting means for securing the enactment and enforcement of a liquor law similar to that of Maine in Wisconsin. The Convention was organized by calling W. W. Treadway, Esq., of Genesee, to the Chair, and the appointment of P. Lathrop, M. D., of Beloit, as Secretary *pro tempore*.

After singing and prayer for the Divine blessing, the following permanent officers were chosen:

President—T. L. Wright, Esq., Beloit.

Vice Presidents—T. H. Sleeper, Esq., Janesville; Ephraim Wilcox, Salem; W. W. Treadway, Esq., Genesee, and Erskine Stansbury, Esq., Summit.

Secretaries—J. H. Northrop, Lafayette, and R. Z. Humphrey, Racine.

The following resolutions were introduced by the Business Committee, and unanimously adopted:

Resolved, That it is the duty of government to protect the people in their rights of person and property; that the traffic in intoxicating liquors as a beverage, is destructive of these rights, and detrimental to all the interest which government is constituted to protect; that the laws which sanction the traffic are wrong, and ought to be repealed; and that the security of life, the safety of property, and the relief of the people from the burdens of unjust taxation, demands its suppression by law.

Resolved, That the principle assumed and carried out in the Maine Law that spirituous and intoxicating liquor kept for sale as a beverage, should be destroyed by the State as a public evil, meets the approbation of this convention, as consonant with the destruction of the implements of gambling and of counterfeiting, of poisonous food infectious hides, and weapons of war in the hands of an enemy; that if the liquor destroyed is private property, it is only so as are the implements of the counterfeiter, dangerous and deadly to the best interests of the community; that its destruction is no waste of the bounties of Providence more than the destruction of noxious weeds, while its very destruction enriches the State to an amount exceeding that for which it could have been sold. It tends to put an end to all subterfuges, frauds, and secret sales, and to the demand for it in community. It makes the state a perfect asylum for the inebriate. It is a solemn manifestation to the world of the vile and worthless nature of the article destroyed; and an unmistakable token to the vender, of the end to which a righteous public sentiment will ultimately bring his business. For these and other reasons the convention give it their hearty approbation: and they do strongly recommend to all the friends of Temperance to cherish it as the sure, and the only sure triumph of their cause, and continually to urge its adoption upon our legislature.

Resolved, That for the more efficient advancement of the cause of temperance in this state, we recommend as follows;

1. The organization of a county temperance alliance in every county, where no such organization now exists, for the purpose of aiding in the formation of town alliances, and the employment if practicable, of a county agent or agents, for the more effectual carrying out of the objects herein named.

2. The organization of temperance alliances in every town and neighborhood as for as practicable in the several counties.

3. That each alliance so formed employ every suitable means for the diffusion of temperance information, especially of facts relative to the principles and workings of the Main Liquor Law; to labor in all suitable ways to obtain the enactment of a law in this state prohibiting the traffic in intoxicating liquors as a beverage; to adopt such measures as will best ensure the enforcement of such a law, if enacted; and in all other appropriate ways to advance the interests of the temperance cause.

4. That we proceed to appoint committees in the several counties here represented for the purpose of calling meetings in said counties to carry out with efficiency the first three clauses of this resolution.

Resolved, That we recommend to the friends of temperance to use every honorable means to procure the nomination of thorough temperance men in the political parties to which they are respectively attached.

Committees were appointed in accordance with the suggestion of the fourth clause of the third resolution for all the counties represented in the convention, and arrangements were made for the appointment of similar committees in all the counties of Southern Wisconsin.

Much enthusiasm was manifested by the convention. There were ready and powerful speakers to sustain each resolution as it arose. The spirit of the meeting was ardent, though the destruction of ardent spirit was its expressed design. It is hoped that its suggestions will be heeded, and that one of its consequences will be a demand for the Maine Law in Wisconsin too potent for legislative resistance.

BRIG C. A. BEMIS ASHORE.—The Brig Bemis, Capt. Jeffords, cleared from this port yesterday morning with a cargo of 5400 bushels wheat and about 1800 barrels flour—owned by Messrs. Henderson & Pettibone. When about 15 miles out she sprung a leak during the gale in the evening and was compelled to return. She reached the mouth of the Bay about 12 o'clock, when becoming water-lodged and unmanageable, she grounded near the shore in six or seven feet water, a short distance below Cedar Point Light House, where she now lies with five feet water in the hold.

A portion of the cargo will be saved in a damaged condition, but we learn was fully insured.—The vessel was also insured and will be got off without material injury. *Sandusky Register.*

FIRE IN CINCINNATI.—Cincinnati, Aug. 30th.—At noon-day a fire broke out in a small frame house on Webb st., and before the fireman reached the spot five houses were in flames, and in a short time they communicated of the roof of Trinity Church—German Roman Catholic School, and several other buildings, all of which will be utterly destroyed. The Church and School-house were fully insured.

"England may rely upon GEN. PIERCE for electoral co-operation.—*Manchester (England) Examiner.*

"*The primary question for the United States in the election, as it is for ourselves in the electoral contests of this week, is the national sanction, and inviolable establishment of Free Trade. The triumph of the candidate of the Democratic party, brought forward by the men of the South, will secure, probably for ever, the ascendancy of liberal commercial principles. In this respect, and on this point, we take Gen. Pierce to be a fair representative of the opinions of Mr. Calhoun, and, as such, a valuable practical ally to the commercial policy of the country. Gen. Pierce has our best wishes for his success.*"—London (England) *Times, July 6, 1852.*

"*When the Celt has crossed the Atlantic, he begins for the first time in his life to consume the manufactures of this country (England) and indirectly to contribute to its customs. We may possibly live to see the day when the chief produce of Ireland will be cattle, and English and Scotch the majority of her population. The nine or ten millions of Irish, who by that time will have settled in the United States, cannot be less friendly to England, and will certainly be much better customers to her than they now are.*"—*London Times.*

Friends of Internal Improvements, Read this!

Resolved, That the Convention does not confer on the General Government any power to commence and carry on a general system of Internal Improvements.—*Baltimore Democratic Platform.*

"Look at that list! On one side, in favor of the measure, you will see all the Northern votes, with the exception of a few ever-faithful and never-too-much-to-be honored Northern Democrats. Among these last, our eye rests *with inexpressible pleasure* upon the name of HARRY HIBBARD, of New Hampshire, and the friend of FRANKLIN PIERCE, and, we believe, the Representative of his District. A little lower down is that of PEASLEE, another Granite State Democrat. With Hibbard, Peaslee and Jackson, stand nearly every Democratic member of Congress from the South."—*Savannah Georgian* on the River and Harbor Bill.

"This bill is the first of the sort that has been passed for a long time, and *it will be the last for four years at least.* FRANKLIN PIERCE will come into power on the 4th of next March. A strict construction and respect for the constitution is the Medean law of the Democratic party; and Mr. Pierce, besides that general reason, *is bound by every idea of consistency, and by every fact of his past career, to veto every bill like this.* He will do it, if they are presented to him, JUST SO SURELY AS THERE IS A SUN IN THE SKY."—*Richmond Examiner*, River and Harbor Bill.

Friends of Equal Rights, Read this!

THE NEW HAMPSHIRE TEST.—"*The failure of that Convention* IS DIRECTLY TRACED TO THOSE HUNKER LEADERS, *PIERCE*, ATHERTON & Co., *who were determined that it should either be entirely subservient to their party views, or be what it was, an abortion. They succeeded, and to them belongs the honor.*"—Concord *Democrat, June 12th, 1851.*

Whig Congressional Conventions.

FIRST DISTRICT.

A Whig Congressional Convention, to consist of one Delegate from each Assembly District, and one Delegate from each Senatorial District, will be held at the WATERFORD HOUSE, Waterford, Racine County, on Wednesday, the 22nd of September at 12 M, to nominate suitable Candidates for Representative in Congress, and for District Elector.

The Whigs of the several Assembly Districts are requested to choose their Delegates to the District Convention at such times and places as their respective County Committees may direct.

THE JUDICIAL NOMINATIONS.

We place at the head of our columns this morning the names of EDWARD V. WHITON for Chief Justice, and MARSHALL M. STRONG and JAMES H. KNOWLTON for Associate Justices of the Supreme Court—nominated yesterday at Madison by the Independent Judicial Convention.

We place it there with pleasure, as a nomination eminently fit to be made, composed of men capable and honest, and who will be faithful to the Constitution and the Law. We present it to the readers of the *Sentinel*, and to the friends of an Independent Judiciary as a ticket worthy of their earnest support, and sure to be elected if they know and care for their best interests, as we are certain is the case. A Supreme Court composed of such men cannot but reflect credit and honor on the State.

The Game.

The Locofoco press is playing a bold game, though an old one. Day after day it pours out all manner of calumny and abuse upon the heads of General Scott and his friends, but never, on any occasion, does it retract one of its false charges, even when denied and disproved in the clearest manner; but quietly repeats the charge the next day, with additions. It advocates no principle—it simply shouts "democracy," and "vote the ticket," and expects the mass of the people to follow like a flock of sheep. Then, when a few readers can be found to peruse its articles, it abuses the men of the Whig party with foul charges and false statements, and expects the slaves of party to applaud to the echo. The *News*, of this city, is one of the most unscrupulous of these partizan presses, and its conduct is just what we have described above.

In yesterday's issue it garbles an extract from a private conversation of Mr. Seward with a gentleman of Virginia, and having vamped, and italicised, and capitalised the extract to suit its purposes, attempts to charge it home upon *us*.—The effort is too absurd, the pretence too ridiculous, to require any answer from us.

Then, again, it copies the shameless falsehood relative to the Albany *Advertiser*, with the remark:

"This identity of sentiment between the whig leaders is further shown by the following extracts, the first one alleged to have been published in the Albany *Advertiser*, while edited by Gen. King, and *no satisfactory denial of which we have yet seen.*"

We have again and again denied the charge in the most explicit language. Only on Tuesday last, we said:

"We deny that any such sentiment ever appeared in the Albany *Daily Advertiser* with our "sanction," or while we were one of its editors. The assertion of the *Democrat* to the contrary is a lie out of whole cloth."

Yet the *News* says it has never seen "any satisfactory denial" of the charge! Why is the denial not satisfactory? Because our answer was to the *Democrat*, and not to the *News?* If that is the difficulty, our incredulous neighbors may at once take its language to themselves.

Once more, that paper copies a declaration ascribed to Matthew L. Davis, expressing an anxiety to hang all Irishmen (!) and calls Mr. Davis a "distinguished Whig." Whatever truth or falsehood may be in the ascription of the language to Mr. Davis—and it is most likely the latter—that gentleman, who has long been in his grave, never was a "distinguished Whig" at all!

Still further following up this game of misrepresentation, the *News* publishes in staring capitals the following language, ascribed to General Scott many years since:

I now hesitate between extending the period of residence before naturalization and a total repeal of all acts of Congress on the subject—my mind inclines to the latter. Concurring fully in the principles of the Philadelphia movement, &c.

Here is what General Scott wrote in 1848, in answer to an invitation to attend the festival of St Patrick's Day in New York. We shan't find the *News* publishing it, by any manner of means:

Washington, May 29, '48.

DEAR SIR:—In reply to your kind letter of the 8th instant, I take pleasure in saying that, grateful to the partial estimate you place on my public services, you do me no more than justice in assuming that I entertain *kind and liberal views toward our naturalized citizens.* Certainly, it would be impossible for me to recommend or support any measure intended to exclude them from a full and just participation in all civil and political rights now secured to them by our republican laws and institutions.

It is true, that in a season of unusual excitement, some years ago, when both parties complained of fraudulent practices in the naturalization of foreigners, and when there seemed to be danger that native and adopted citizens would be permanently arrayed against each other in hostile factions, I was inclined to concur in the opinion, then avowed by many leading statesmen, that some modification of the naturalization laws might be necessary, in order to prevent abuses, allay strife, and restore harmony between the different classes of our people. But later experience and reflection have entirely removed this impression and dissipated my apprehensions.

In my recent campaign in Mexico, a very large proportion of the men under my command were your countrymen, [Irish,] Germans, &c. I witnessed with admiration their zeal, and fidelity, and valor in maintaining our flag in the face of every danger. Vying with each other, and our native born soldiers in the same ranks, in patriotism, constancy and heroic daring, I was happy to call them brothers in the field, as I shall always be to salute them as countrymen at home.

I remain, dear sir, with great esteem, yours truly.
WINFIELD SCOTT.

As We Expected.

The *News*, after congratulating the people of this city upon the passage of the Harbor Bill, goes on to say:

By this act the brand of falsehood is unequivocally placed upon the electioneering stories of the whigs, that democrats are opposed to Harbor and River improvements. A democratic committee on Commerce reported this bill, a democratic Congress passed it.

The *News* don't *publish the vote* which passed the Bill. Some people have seen it, and doubtless the readers of the *News* would like to do so. We present it below in a convenient form for copying. Here is the vote which first passed it in the House:

TOTAL OF PARTIES IN THE HOUSE.

Democrats—**138**: *Whigs*, 89: *Free Soilers*, 5

THE VOTE.

For the Bill—Whigs 59; Democrats **40**; Free Soilers 4.

Against the Bill—Whigs 13; Democrats **62**.

Absent or Dodged—Whigs 17; Democrats **36**; Free Soilers 1.

And in the Senate:

For the Bill—**19** Whigs, 13 Democrats, 3 Free Soilers.

Against the Bill—3 Whigs, **21** Democrats.

Absent—1 Whig, 3 Democrats.

That is what the *News* claims as the passage of a Bill by a "Democratic Congress."

But, again, that paper draws the following conclusion from the passage of this Bill:

Under democratic auspices the commerce of the Great West will receive new assistance from year to year, as its wants are made known, and its demands grow in importance with its increasing greatness.

The *News* draws conclusions with the power of a steam engine. Here the Whigs and Free Soilers have passed the bill, aided by a few "democrats" who choose to act independently of their party platform, and that paper draws the inference that, if its party can only get into full power, such bills will readily pass hereafter!

What would have been the fate of this bill, if it depended on "democratic" votes? Let the *record* answer. It would have received 40 out of 138 votes in the House, and 13 out of 37 votes in the Senate!

The Harbor Bill in the House—Scene in the Senate.

On Saturday, 28th the following were the proceedings in the House on Harbor Bill:

On motion of Mr. Seymour, (dem.) of N. Y. the rules were suspended by yeas 112, nayes 47—when he moved that the House take up the River and Harbor bill, as returned from the Senate with amendments. His object being to refer it to a Committee of the whole on the State of the Union.

Mr. Richardson, (dem.) of Ill., opposed the motion, saying there was no necessity for this procedure, and the subject could could be acted upon without such reference.

The Speaker decided that the bill must go to a committee under the rule which requires bills appropriating money to be there considered.

Mr. Evans, (whig) of Md., moved a suspension of this rule, which was agreed to by yeas 115, nays 55.

The bill was now before the House for its action.

Mr. Seymour, of N. Y., said he would not trespass on the patience of the House at this late period of the session, and moved the previous question.

Mr. Hale, (dem.) of Mo., moved that the bill be tabled, which was decided negatively, by yeas 56, nays 112.

The House then acted upon the Senate's amendments to the bill, and concurred in all.

There was also a scene in the Senate, in which Mr. Weller, Loco, from California, figured, of which we have the following report:

Mr. Smith addressed the Senate again on the subject, and intimated an intention of offering an amendment, and took his seat to prepare it.

Mr. Weller, and others cried "Question."

Mr. Smith said it was not very customary in the Senate to cry "Question" when a Senator had the floor.

Mr. Weller said the Senator had taken his seat, and he supposed he had finished. If the Senator had anything to communicate to the Senate, he had no doubt the Senate would hear him patiently; but if the Senator should communicate any information to the Senate, it would be for the first time.

Mr. Smith said the Senator from California had made the very courteous, gentlemanly, and senatorial remark that if he had any information to communicate to the Senate, it would be for the first time. This was all the notice he would take of the courteous gentlemanly, and senatorial remark of the gentleman from California. He then offered an amendment, which was sent to the desk. The Secretary reading it imperfectly he left his seat and went up to the Clerk's desk to re-write the amendment. In the meantime,

Mr. Brooke (whig) of Miss., commenced a speech in favor of the amendment.

After some time, Mr. Smith claimed the floor, and it was awarded him.

Mr Weller said the Senator made a remark a few minutes ago, was liable to two constructions. He would like to ask the Senator a question.

Mr. Smith said he preferred going on with his remarks.

Mr. Weller asked if the Senator would not give way to a question.

Mr. Smith declined doing so.

Mr. Weller in an under tone—I might expect nothing else from a contemptible puppy.

Mr. Smith continued in favor of his amendment.

TREMENDIOUS!—Ex-Gov. Aaron Vail Brown of Tennessee, has been making divers odd exhibitions of himself on the stump in that state recently. At Columbia, not long since, he made a speech, reported in the Nashville *Union*. We copy one of the loftiest flights of eloquent gammon:

"Two years ago, in the very heat of the battle, when blow after blow, and crash after crash, seemed to announce the downfall of the Republic, John P. Hale, the great leader of the Abolitionists, proclaimed in a public speech that he was ready to head an army and to march upon the South to put down Slavery. What did Franklin Pierce say to that? *He sprung forward like the Numidian tiger*, and replied, '*You shall first march over my dead body*; for I will head an army to oppose you!' Noble sentiment! Heroic declaration! Could old Marion or Sumpter have beat that? Did Gen Scott ever make for you such a speech as that? Did he ever exhibit such sublime devotion to us and to the Constitution? No; for at that very moment he was being nominated by every Abolition Legislature, and his name flying at the head of every Abolition newspaper at the North. Fillmore was trying hard to breast the storm; Webster was putting forth all his mighty power; Pierce was bearding the great lion of the tribe face to face; but Winfield Scott had not one single word to say publicly in your behalf! Nay, worse than that, he threw his sword, his war plumes, and all his large honor in the scale against you!"

A GREAT WHEAT CROP.—Perry Smith, of Sweden, Monroe County, N. Y., has raised 505 bus. of wheat on 10½ acres. Eight of the ten acres yielded 50 bus. to the acre.

What do our farmers think of that? Have any of them equalled it?

City Matters.

SUPERB FRUIT.—We are indebted to Mr R. HOUGHTON, for altogether the finest display of Plums that we have yet seen in Wisconsin, grown in his garden, in the north part of city. He bro't us two branches, one from a tree of the Jefferson plum, the other of the Green Gage. The former is a *last year's graft*, set in a wild plum tree, and about 18 inches long, thickly set with fine large plums, from 3½ to 5 inches in circumference, 45 in number, and weighing 4¾ lbs. The other is a bunch of green gages, hanging as thick as it comfortably can, with fine healthy fruit.

After what we have seen this year, no one need expect to persuade us that the very best of fruit cannot be raised in Wisconsin. Evidences to the contrary crowd upon us daily.

BUSY TIMES.—The vicinity of the Railroad Depot presents a busy scene about these days, at 2, P. M. The produce buyers gather in large numbers to compete for the grain, and the drays to convey it to the different warehouses and mills. Other drays are crowded down with merchandize for the country. Then piles of lumber and iron and brick are being loaded on the westward train. Add to these the gangs of hands and teams employed in filling in the marsh and building the depot and machine shop, and we have all the elements of a lively scene.

ACCIDENT.—Yesterday afternoon as the laborers on FERSON'S Block, in the 1st ward, were about quitting work, one of them fell from scaffolding to the ground striking upon his abdomen among some timbers, and injuring him very severly. We did not learn his name.

ALL RIGHT.—We had the pleasure of shaking hands with our State Treasurer Mr. JANSSEN, looking as well and hearty as if he had not been recently dead and buried.

GERMAN MUSICAL SOCIETY.—This popular and well deserving Society commences its fall campaign by a rehearsal on Tuesday evening of next week.

RAIN.—After weeks of dry and dusty weather, the clouds gathered yesterday and poured down a fine shower, most grateful to the parched earth and the denizens thereof. We hope the rain has extended into the country as it is very much needed.

DIABOLICAL OUTRAGE.—Mr. A. Roesler was wantonly assaulted, we understand, at a saloon in this city, about 12, o'clock last night, while on his way home, by a band of ruffians who beat him with their fists, severly. After leaving the saloon, he was again attacked and stabed several times with a knife, tho' not dangerous. As near as we can learn, this brutal attack was made upon Mr. Roesler, in consequence of his supporting Scott.

The perpetration of such a barbarous outrage upon an orderly citizen, is a crime of too deep a dye to be passed over lightly, and the perpetrators merit severe punishment.—*Free Democrat.*

The above news derived from a report very generally in circulation yesterday, but we are glad to be able to publish the following card from Mr. ROESLER, correcting it:

Ed's. Sentinel.—Gentlemen—

Allow me to state to you that I was neither beaten with fists, nor cowhided, nor stabbed, nor hurt in any way; and that all the rumor which I learn is spread through the city, and see in one evening paper, has originated only from my having been absent from the city to-day with my family. It is true, some ruffians attempted an assault upon me last night, but the show of a pistol was sufficient to protect me.

Sept. 1st, 8 P. M. A. ROESLER.

THE INDEPENDENT JUDICIAL MOVEMENT.—The *Wisconsin*, seemingly aided by some correspondent, is doing what it can, in a small way, to throw cold water upon the movement for an Independent Judicial Ticket, and in order to effect its object, makes a dead set at the 1st ward meeting, taking up the cudgels for one of the gentlemen voted for as delegate, as if it really had authority to speak for him.

The *Wisconsin's* troubles trouble nobody else. In the absence of any possible motive on the part of any who attended that meeting, to do anything which should result otherwise than in nominating the best men for candidates, all things considered, it is idle to dispute about the matter.

As the *Wisconsin* is committed to the present ticket, and only published the call for a new one as a paid advertisement, its *friendly* advice to the advocates of the latter will go for just what they are worth.

☞ HON. THOMAS CORWIN, says the N. York *Tribune*, has been arraigned in both Houses of Congress, and in the Opposition Presses throughout the country, as guilty of some dishonorable and dishonest act in connection with the Gardiner Claim, and at length a committee was appointed by the Senate to investigate the charge, as Mr. Corwin earnestly desired. The facts were all at hand; the case might have been disposed of in a week; when lo! Mr. C. was yesterday informed that the committee had *postponed the investigation till next session*—that is, till next winter! If this is not unmanly, what could be!

VOICES.—The Loco Foco Western papers, despairing of finding or making any enthusiasm for their Presidential candidate, are endeavoring to extract some little very cold crumbs of comfort from the letters of a few faint-hearted Whigs in New York and Boston, who think that because there is yet some trifling disaffection among Mr. Webster's self-styled friends, it is all day with the Whig cause generally.

How long will it be before such weak minded people learn that although "Paris is France," New York is not the Union, and Boston is not the whole of the Republic? Let some of them come out West, and see how the pulse of a noble, freehearted People beats for old Chippewa!

"Another Mare's Nest."

Such is the very appropriate title given by the Waukesha *Democrat* to a grand discovery which it has made of a "circular sent out from Washington," signed by sundry Whig members of Congress.

Shortly after the manifesto of some few southern whig members was issued, refusing to support Scott, bearing the signature of a number who had for a couple of years been doing their best to thwart Whig measures, a capital counterblast was put out, in the shape of a circular, bearing the signature of a few reliable Whigs, giving their reasons why they would not support Mr. Pierce. It was a first rate take off, and regarded everywhere as a good joke at the expense of the fire-eaters. This circular has been done into pamphlet form, and sent around for the enjoyment of the Whigs everywhere, and it is this document with which our Waukesha cotemporary has been taken in. We thought him too smart for such a fate.

THE SEQUEL.—On the day succeeding the disgraceful scene in the House of Representative, a report of which we published a day or two since, Mr. Johnson, of Arkansas, arose and said:

The unpleasant difficulty occurring on yesterday in debate in this House between Messrs. White of Kentucky, and Polk of Tennessee, was referred to Mr. Gray, of Kentucky, and myself. It is my pleasant duty to state that the difference between those gentleman arose and existed in misapprehension, and that it has been honorably and satisfactorily adjusted.

Mr. Edgerton said he objected to the explanation, but, as it had been made, he would submit the matter to the House.

Mr. Gray wished to say that he acted in conjunction with the gentleman from Arkansas in this business, and he concurred in the statement just made that the difficulty between the parties had been adjusted in a manner amicable and satisfactory to both, and ought to be so considered by the respective friends of those gentlemen.

THE VERNON MURDER.—A. W. RANDALL, Esq. has furnished the Waukesha *Democrat* with the minutes of the examination of Whipple at Vernon, before the justice. The fatal act seems to have been committed in an instant of passions, and the blow was scarcely struck when he who inflicted it, seeing Nolan lying senseless before him, said he would give worlds to recal it, and "if the man recovered, would never strike another."

HEAR BOTH SIDES.

We cheerfully give place to the following communication from Capt. Ward, one of the largest owners of the ill-fated *Atlantic*, in answer to numerous charges against himself and partners:

Much discussion and many erroneous views having been put in circulation in reference to this unfortunate accident, I deem it but just to all parties interested to give a full statement of the occurrence, so far as facts have been obtained from the officers of both steamers.

The Atlantic was on her usual course up the lake and about three miles off Long Point Light soon after passing which, the second mate, who was on watch, and the wheelsman, discovered two small lights, about three quarters of a point to the left hand of their course—no signal lights were seen on board the Propeller by those of the Atlantic until half an hour after the collision occurred. As the Propeller approached the boat, the wheelsman on the Atlantic was ordered by the second mate to put his wheel aport, by which the boat would be turned more towards the shore and leave the Propeller's lights further to the left.

The mate of the Propeller swears that he saw the Atlantic's red light, which is the most positive proof that he knew that the Atlantic was intending to go to the right or inshore side of the Propeller, where the law and universal custom required that she should go. The boats approach each other, and just before they meet, the helm of the Propeller was put hard a starboard—thus attempting to cross the Atlantic's bow on the left hand side, and contrary to all law and well established custom throughout the United States, rendering a collision inevitable. Had the Propeller have put her wheel aport, as she should have done, half a minute before the collision, it could not have occurred, or if her engine had been stopped one minute before, she could not have had sufficient force to cut the Atlantic to her hull.

The effect of turning the Propeller towards shore was to bring the Atlantic's side to the bow of the Propeller, rendering a collision extremely dangerous.

About the same instant of the collision, the propeller's engine was undoubtedly stopped, but she had lost none of her way, and her bows passed more than one-third of the distance across the boat, destroying the heavy masses of iron and timber in a moment, and making a hole in the side of the boat as large as the Propeller's bows. The idea that the Propeller had nearly stopped her headway, when she run square into the Atlantic, is so preposterous that no sane man acquainted with navigation can entertain such an opinion for a moment.

The Atlantic was now turned directly to the shore, with the reasonable hope that she might reach shoal water before she sunk, and if she could have remained in motion ten minutes longer she would have got into two or three fathoms water, when her upper cabin would have remained entirely out of the water. As soon as the order was given to put the boat for the shore, the officers turned their attention to the careening of the boat down so as to bring the disabled side out of the water, if possible. She settled so rapidly that it was impossible to relieve the breach, and in two or three minutes the main hold of the boat was filled with water.

Finding that the boat must sink, the Captain and mates ordered the boats to be got ready.—The passengers had gathered round them in great numbers, and in their excitement filled two of the boats in launching, one of which was afterwards bailed out and did good service in rescuing passengers. About the time the boats were launched, a German caught the Captain by his ankles and tripped him down, his forehead striking some solid object that rendered him senseless for some time, and from which he has not yet recovered. He was soon afterwards carried to the Propeller, when he urged the officers of that boat to go alongside the wreck and take off the survivors who were standing in large numbers on the hurricane deck of the boat. This was reluctantly done, as the officers of the Propeller were foolishly apprehensive that the Propeller might follow the steamer to the bottom, by the eddy she might cause in sinking.

As soon as the water had reached the main deck of the boat, the second mate rung the large bell, which was continued to be rung most of the time until the water reached the bell itself.

The noise caused by the blowing off steam by the Propeller, probably prevented those on board hearing it.

After the boats were launched the first mate took charge of one of them, and used great exertions to rescue passengers who were floating in various directions about the boat, some on sofas, gang-boards &c, and he thinks he picked up twenty or thirty, who were supported by the *tin-ned stools*. I have seen several persons myself, who attribute their safety to them.

The Atlantic had on board of her, ample means for sustaining every person board, and if there could have been a little more time, and the passengers themselves have been more thoughtful, and less excited, not one of them need to have been lost. But many of them rushed overboard with cane seat stools and chair in their hands, others went with nothing and drowned, while there was still ample room for all of them on the upper deck of the boat, which was partly out of water.

There were on board of her, one large Yawl Boat, and two of Francis' Iron Life Boats, large size—two hundred and fifty stools with air-tight double tins in the bottom, eighteen Sofas with a large air-tight canister in each end, besides the gang boards and four large gang planks.

No other boat on the lakes, had as good small boats, or was as well supplied with the means of escape as the Atlantic. She was in every respect a good boat, and unusually well furnished. Her officers were efficient, active, intelligent men, well acquainted with their duties, always sustained a good reputation with the public, as well as with the owners, and on this most melancholy occasion, when our pecuniary loss is at least seventy-five thousand dollars, I feel that they performed all that men could do on an occasion so sudden in its awful effects, and calling for the united efforts of at least fifty officers, to have performed all their requisite duties during the disaster.

These men who had done all that good Seamanship and care could do, are condemned in unmeasured terms, while the Officers of the Propeller, who had grossly violated every rule of navigation and were the sole cause of the dreadful disaster, are applauded as benefactors to those who were saved, because she condescended to take on board those who were so fortunate as to escape the doom carelessly and causelessly prepared for them by the object of their approval.

I am one of the largest owners in the steamer Atlantic; I had the full ultimate control of her, I am the only owner answerable to the public for failing to do an owner's duty. I feel conscious that I have done my whole duty. The appointment of the Officers and crew were made by me, and I alone am responsible for their capacity,—There was a larger proportion of the Cabin passengers saved, than of the crew, thus showing that the passengers were as much cared for as the crew.

And if any indignation is to be expended upon any, I trust it may be heaped upon me, instead of attacking a man who was of all others, except those lost, deserving sympathy.

This is the first and only disaster involving loss of life, that has ever occurred on any of our boats—we had relaxed no vigilance on account of our success. Every year we have endeavored to improve our boats in speed and security. This unexampled calamity was not our fault—and I fear no amount of care of any set of steamers can render navigation safe, until all who have them in charge learn their duty, and perform it.

E. B. WARD.

STOCKS AND BONDS.—We have been much interested in examining the 9th number of SIMEON DRAPER'S Daily Report of Stocks and Bonds in New York, dated Aug. 26th, 1852. It contains an extensive list for sale by Mr. Draper, of these securities, in all parts of the United States. Among them we notice 600,000 1st Mortgage Bonds on the Milwaukee and Mississippi R. R. $50,000 Milwaukee Gas Light Co., and $75000 Fox River Improvement scrip. Milwaukee and Mississippi R. R. stocks are quoted at 100a103.

SUFFRAGE IN ENGLAND.—The London *Herald* compiles from the returns of the late election in England, the following sum total of the votes cast:

Conservative votes	133,231
Whig Radical votes	128,744
Total	261,975

Here, in the United States, with considerably less population, if the above includes all the kingdom, the vote is *over three millions*.

Milwaukee Brick.

Mr. STARBUCK, of the Cincinnati *Times*, writes to his paper from Cleveland as follows:

"In my walks around the city, I came across Dr. Peite, one of the oldest and most skilful practitioners of homoeopathy who is now residing here temporarily for the summer season only. He has under way a block of fine stores on one of the principal business streets, which, when finished, will present a fine business-like appearance; each of the stores will be 25 feet front by 80 ft. deep.—The front will be constructed entirely of pressed Milwaukee brick, which I am told, presents an appearance equal to the finest marble, it being of cream-color, and, I should judge, more capable of standing frost than the common brick.

This quality of brick is only to be obtained at Milwaukee, and although the cost and transportation is double that of the common brick, it is greatly cheaper than the stone fronts would be, and much handsomer. I hope that some enterprising Cincinnatian will try the experiment of using these brick in some one of the many houses that will be built in the "Queen City," next year. From many favorable opinions that are expressed of it here, I am confident it would pay. Who will be the pioneer in this enterprise?

☞ Alderman BROWN, of the 3d ward, shortly after his election, introduced a series of resolutions, calling upon our representatives to use their best exertions to secure the passage of a River and Harbor bill, containing an appropriation for the Straight Cut, &c. His efforts will be remembered by our citizens, as well as our democratic Senators and Representatives who have no doubt contributed materially to the passage of the bill, and to the appropriation for this city which will be a great and lasting benefit.—*Morning News.*

Ald. BROWN well deserves the above compliment. He is always prompt in the service of his constituents of his Ward, and in working for the general good of the city. If there is any political capital made out of it, as the *News* seems to intimate, he is a first rate Whig.

WOODS ON FIRE.—The long continued dry weather in the Lake Superior region, has made the timber and turf on the South Shore "dry as a powder-house," and last week extensive fires were raging. At the Ontonagon and Eagle Harbor thousands of cords of wood, and any given quantity of standing timber, such as it is, had been destroyed, and the fires were not checked.—*Cleveland Herald.*

☞ The *Sentinel* corrects our statement relative to the cause of the *demise* of the Madison Palladium, by saying that its stoppage was occasioned by the reviving of an old difficulty which it was hoped was permanently healed. I says that Mr. Atwood, one of the proprietors, has gone East to purchase a new office, and will soon have the paper going again. We got our information respecting the *Palladium* from the Madison re-lie-able.—*Free Democrat.*

OFFICE OF THE
Association for the Exhibition of the Industry of all Nations,
NEW YORK, JULY 12th, 1852.
THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS give notice that the Exhibition will be opened, in the City of New York, on the 2d day of May, 1853. The Municipal Authorities have [illegible] to them the use of Reservoir Square, and they are privileged to erect thereon a building worthy of the purpose to which it is to be devoted. The Association desire to make the Exhibition, in fact as well as in name, a Representation from other countries as well as their own, of Raw Materials and Produce, Manufactures, Machinery and Fine Arts. To this end they have made arrangements with CHARLES BUSCHEK, Esquire, late Commissioner of the Austrian Empire at the Industrial Exhibition of London, whose skill, experience and high character offer the most satisfactory security to European contributors from abroad. Mr. Buschek is the authorized Agent of this Association, for all countries other than the Continent of America, and as such has received its instructions. All communications from Contributors abroad must be addressed to him at "The Office of the Exhibition of the Industry of all Nations in New York," No. 4 Charing Cross, London. He will state to them the nature of the powers given and authority conferred, and will also explain the great inducements offered by this Enterprise to European Exhibitors. This association will correspond with all persons in the United States, the Canadas and British Provinces, the West Indies, and this Continent generally, who may desire to contribute to this Exhibition. All such communications must be addressed to "THE SECRETARY OF THE ASSOCIATION FOR THE EXHIBITION OF THE INDUSTRY OF ALL NATIONS, New York." The Association is now ready to receive applications, and it is desired that they be sent in immediately. Due notice will be given, hereafter, when the Building will be ready for the reception of articles. Application for the admission of Objects to the Exhibition must represent intelligibly their nature and purpose, and must also state distinctly the number of Square Feet, whether of Wall, Floor or Counter, required. Machinery will be exhibited in motion—the Motive Power to be furnished by the Association—and applications for the admission of Machinery, to be so exhibited, in addition to the general description and the requisition for space, must set forth the amount of Motive Power required. The Association deem it proper to announce that Paintings in Frames will be exhibited. As, notwithstanding the magnitude of the proposed Building, there must, necessarily, be a limitation of space, the Association reserves the right to modify or reject applications; but, in so doing, will be governed by strict impartiality, looking only to the general objects of the Enterprise. The Association also reserves the right of determining the length of time, not to exceed in any case one season, during which objects shall, severally, form part of the Exhibition. Exhibitors are requested to designate an Agent, to whom their contributions shall be delivered when withdrawn from the Exhibition. Prizes for excellence in the various departments of the Exhibition, will be awarded under the direction of Capable and Eminent Persons.—With this statement the Directors solicit the co-operation of the Productive Intellect and Industry of their own and other countries.

Arrival of the Steamer

WASHINGTON!

New York, Sept. 1st, 1852.

The American Steamship, *Washington*, with 4 days later news from Europe, arrived at 7, A. M.

The Liverpool Cotton Market, on the day of *Asia's* departure, was very active. Sales reached 12,500 bales. Monday following they were 12,000, at ⅛ advance. Tuesday, the market became dull, and sales barely exceeded 800 bales.

Grain—Trade had suffered a check, owing to the very favorable weather, and the more promising appearance of the harvest.

Wheat and flour were both slightly easier.—White corn was neglected, and floating cargoes easier to buy.

The political news is not important.

The British troops had gained further victories in Burmah and it was supposed that the Empire would be annexed to British India.

The Washington brings a large and valuable cargo of German, French and Swiss merchandize.

ENGLAND.

The excitement regarding the fishery difficulty has greatly subsided. A ministerial evening journal has in fact announced that the matter was in a good process for adjustment.

Vice-Chancellor Sir James Parker died on the 16th.

The state of the trade in the provisions was satisfactory.

AUSTRALIA.

Accounts from Port Philip, Woburn and Sidney has been received to the middle of May.

The yield of gold was immense. Outrages on life and property were very prevalent.

France.—At the grand fetes of the 18th Aug. the President was respectfully, but not enthusiastically, received. A partial amnesty to certain political pensioners had been granted by Louis Napoleon.

Reports of the market in France and Belgium, state that an upward tendency prevailed.

Arrival of the Steamer

AMERICA!

New York, Sept. 1.

The U. S. Frigate, *Mississippi*, from the Fishing grounds, is announced below.

The *America* arrived at Halifax last evening. Her news has not yet been made public.

The storm of Saturday was servely felt felt in Virginia, at Fredricksburg. The Rappahannok rose to an extraordinary height, carrying away bridges, and doing other injuries. Great damage was done to the crops.

"Democratic" Harmony.

Syracuse, Sept. 1.

The Convention is in a state of utter confusion, with two chairmen, Mr. Bristol, Hunker, of Riga, and Mr. Lapham, Barnburner, of Ontario Co.

The confusion on the nomination of the two Chairmen was immeasurable.

Another Dispatch, 3 P. M.—The Convention was called to order, and A. E. Suffern of Richland, and Thomas S. Clark of Orleans, were chosen Secretaries.

Washington, Aug. 28.

Senate.—Fixed an allowance of $50,000 to Mr. Ritchie for his printing for Congress, above the amount of expenditures. Also that he shall receive 20 per cent, profit for printing the obituary notices of President Taylor.

On motion of Mr. Mason, the provision in the bill appropriating $120,000 for running and marking the boundary line between the United States and Mexico. under the treaty of Hidalgo, was amended by providing that said money shall not be expended until the President is satisfied the boundary has not been fixed north of the town of El Passo. After further debate, the bill was reported in the Senate. The postage bill was then finally passed by concurring in the House amendments, and the Senate adjourned near midnight.

Washington, Aug. 25.

The Committee appointed by the House to investigate Secretary Corwin's connection with the Gardiner case organized to-day with Andrew Johnson, of Tenn.; as chairman, and Charles Chapman, of Conn., Secretary. Mr. Webster was notified to hand over the papers in the case, and a letter was received from Mr Corwin desiring an early hearing for himself in person. The Committee is three Loco Focos and two Whigs. They meet to-morrow at 10 o'clock to begin the investigation.

The difficulty between Polk and Cullom will not be settled amicably, but they will not fight here.

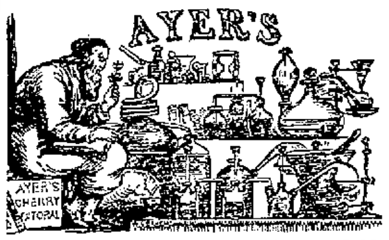
MISCELLANEOUS.



CHERRY PECTORAL
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Many years of trial, instead of impairing the public confidence of this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers could originate and maintain the reputation it enjoys.—While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the Cherry Pectoral does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log-cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, Cherry Pectoral is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending Physicians can employ for the more dangerous affections of the lungs.—Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

DR. J. S. HOUGHTON'S
GREAT DYSPEPSIA CURER!

THE TRUE
DIGESTIVE FLUID,
OR
GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.

This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.

☞ Half a teaspoonful of Pepsin, infused in water will digest or dissolve, Five Pounds of Roast Beef in about two hours, out of the stomach.

Pepsin is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the stomach and intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid, precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York; page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr. Pereira.

Dr. Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had resource to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful.

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."

Professor Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject.—His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. 'In all cases,' he says, "digestion occurred as perfectly in the artificial as in the natural digestions."

Dr. John W. Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386, says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text-Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin, and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.

All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Pepsin, and state many interesting details respecting it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER.

Dr. Houghton's PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea, Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Dr. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared [illegible] in Powder and in Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

☞ Observe this.—Every bottle of the genuine Pepsin bears the written signature of J. S. Houghton, M. D., sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.

☞ Sold by all Druggists and Dealers in Medicine.

THE TRIBUNE.

SCOTT Leads the Column!—Forward! 'Now, brothers, now is the hour!'

THE publishers of THE NEW YORK TRIBUNE proffer copies of their regular and full Weekly issue (eight large pages, each six columns, of Literature, Politics and News) for the remainder of the Presidential Campaign, commencing with the 7th of August and closing with Nov. 25th, when we confidently hope to announce their triumph,—on the following terms:—

1 copy for the 15 weeks	$0 37½
6 copies, to one address	2 00
10 copies do do	3 00
25 copies do do	7 50

Payment in all cases to accompany the order.

The selection of WINFIELD SCOTT for President and WILLIAM A. GRAHAM for Vice-President, has gratified our ardent wishes and strengthened our earnest hopes. Our conviction has long been fixed that Gen. SCOTT is the very man fitted and marked out by his heroic achievements—his inestimable services, at critical periods, in preserving our National tranquillity and preventing the effusion of blood—by his unquestioned integrity, his self devoting patriotism, his unsectional position and his humanity—to unite the Whig Masses in one enthusiastic, invincible host and lead them on to victory. So believing, we have labored and hoped for his nomination, and we now confidently look to the result to justify our sanguine anticipations.

THE TRIBUNE, standing on its own Platform and knowing no other authority but truth, will do its utmost for the election of SCOTT and GRAHAM; but it will not be absorbed by Political discussion. We have chosen to proffer Campaign subscribers a large sheet rather than a small and cheaper one, because the postage is the same, and because we wish to extend the knowledge of what THE TRIBUNE habitually is. The letters of our Associate, BAYARD TAYLOR, who next writes us from Syria, the ruins of Nineveh, Constantinople, &c., will appear every week, with reviews of new Books, Proceedings of Congress and the general Foreign and Domestic News of the Day. If there is another journal in America more valuable or interesting than THE TRIBUNE, it is not because more money or labor is spent thereon.

All the Editions of THE TRIBUNE are printed in large Quarto form, on a sheet 31 by 42 inches, showing eight large and compact pages of reading matter. About half the Daily is devoted to Advertisements, very few of which appear in our other issues. No ten dollar daily in the world contains more reading matter than THE TRIBUNE, which is afforded at $5 per annum, or $1½ for three months.

SEMI-WEEKLY TRIBUNE: One copy (per annum) $3; Two do. $5; Ten do. $20.
WEEKLY TRIBUNE: One copy (per annum) $2; Three do. $5; 8 do. $10; Twenty do. (to one address) $20.

☞ Payment is in all cases required in advance.

Subscriptions for THE CAMPAIGN TRIBUNE, or either of our regular issues, are respectfully solicited. All notes of specie paying banks taken at par and may be remitted at our risk. Please address, GREELEY & McELRATH, jy27 1md Publishers, Tribune Buildings, New York.

H. H. RAYMOND'S Spherical Disinfecting Fluid,

FOR purifying the air of sleeping and sick rooms, cabins and holds of ships, particularly for passenger ships, at sea or in port, prisons, jails, crowded rooms in general, from offensive, close and infectious air of all kinds, including the infectious spheres of cholera, ship, typhus, yellow, bilious, scarlet and other fevers of our own or Southern and Western climates, in cities and towns, on land and water. Also, for disinfecting the bodies, clothes, and trunks of persons who are in or have been in the atmosphere of infectious diseases.

This fluid is healthy to breathe or take internally, and instead of filling the room with a choking, irrespirable air, as the chloride of lime and other chemical preparations in use do, it makes the whole air sweet and salubrious, and at the same time strengthens the respiration and enlivens the spirits of those present, by its balmy, fragrant and tonic influence.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times" and [illegible] newspapers in the United States by James G. Wilson, Esq., the owner of the "Woodworth Patent," [illegible] advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A similar machine was patented in this country by one Knight, some six teen years since, and another one put up by Albert Richards of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use or to any offered by the pretending inventors, at the cost of the machine and ten per cent for my trouble. JAMES G. WILSON, May 19, 1849. Philadelphia."

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial. JOSEPH F. WOODBURY, August 20, 1851—dly East Boston, Mass.

REMOVAL. P. W. BADGLEY,

It has not only been the aim of the subscriber to sell as low as any other similar establishment in the West, but to convince purchasers that he can and will sell as low as Jobbers of Groceries in New York—and why not? The subscriber has been engaged in the Wholesale Grocery Business in New York for sixteen years prior to opening in this market. His experience and facilities enable him to buy from the same parties the Jobbers of New York buy them. He will hold himself in readiness to duplicate any retail merchant's purchases in New York—adding necessary expenses.

His stock on hand consists in part as follows:
90 hhds Brown Sugars, various grades.
110 bbls Clarified Sugars.

THE GREAT REMEDY FOR PILES, HABITUAL COSTIVENESS,

FEMALE COMPLAINTS, Nervous Debility, DYSPEPSIA, OR Loss of Appetite.

THE CONSTANT USE OF PHYSIC FOR THE ABOVE-NAMED COMPLAINTS, IS INJUDICIOUS AND DANGEROUS!

This any Physician will tell you—The more physic used, the more it requires—at last the tone and action of the bowels are destroyed, and the patient becomes afflicted with numerous kinds of nervous disorders.

The Genuine DR. TOWNSEND'S Sarsaparilla, has never failed in a single instance of curing the Piles and Costiveness, which to Females, is the great cause of those complaints which consume their strength, waste their Nervous energy, and enfeeble the whole Constitution. Mental Weakness is consequent upon physical prostration.

This Medicine acts as a simple, but powerful Tonic. It checks the tendency to exhaustion, RENOVATES THE BLOOD, allays NERVOUS EXCITEMENT, and reanimates the Whole Body with New Life.

Dr. JAMES R. CHILTON,

The most celebrated Chemist in the United States, has had charge of the Manufactory for more than a year, and has made many important improvements in the Medicine—from one to two teaspoonfuls of the Improved Sarsaparilla, is all that is required for a dose, to act as a mild Alterative and Tonic.

Beware of Counterfeits.

Dr. Chilton's Certificate, printed on green paper, will be found on every bottle prepared since February, 1850, as well as Dr. S. P. Townsend's signature, on steel plate label on the outside wrapper.
